Now, another monster is rising in the warm blue waters surrounding Taru Taru, a speck of land far out in the Pacific. And this time it's worse than anyone ever imagined."

Nelson Mandela

Nelson Mandela of South Africa is one of the most important figures of the last century. He is a symbol of the struggle against racial and political oppression, and a model for sustaining that struggle with grace and decency. Born into an elite family of the Thembu people, Mandela could have had an elevated place under European control, but he chose a different route. He became a successful lawyer, political activist, national leader, fugitive guerrilla, and finally a prisoner of South Africa's brutal white supremacist apartheid regime. After 25 years in prison, Mandela walked free to become the first black president in South Africa's first multi-racial election. It's been 50 years since the strange being from Venus rampaged through Italy. So it has been 50 years of secrets, misinformation, and outright lying. Once the world was convinced that the Ymir was a giant hoax and the mission to Venus never happened, it was lulled back to sleep, ignorant of the truth. But no one counted on genetics. Years of secret testing and breakthroughs in many of the gray areas of science created unintended consequences that could bring the Earth to its knees... and only an 11-year-old child can save it. 20 Million Miles More, presented for the first time in its entirety as a 96-page graphic novel, is both a sweeping epic and the personal saga of the Calder family.
